SSIS update

Social Services Information System

Issue 377

July 12, 2013

Delphi upgrade completed in Version 13.3

SSIS continues to improve with upgraded software. The Delphi upgrade adds features to grids and screen displays. Users will not have performance issues or navigation problems due to the Delphi upgrade.

SSIS users will see crisper font styles and increased visual markers and definition in screens throughout the application. All grids have text wrap capability within the line item displayed in the grid. The row size

expands and contracts based on how much text has been entered.

In the Payment Search Grid screenshot below, note:

- Clearer font style for column header titles
- Column footer information is easier to read
- Complete text wraps in the Remittance Adv. Desc./Reason grid column.

Note: Spellcheck improvements have been completed. Details will be covered at the August 14 mentor meeting.

Registrations needed for FNWT in Crookston

Fiscal New Worker Training (FNWT) is conveniently available to northwestern MN agencies on August 7-8 in Crookston. However, there are currently too few workers registered and the course is at risk of cancellation.

At least six trainees need to register on [TrainLink](#) by **July 31** to ensure that the session is held. The two-day class will be at the Polk Co. Justice Center computer lab.

Upload Update

The next upload is due on Wednesday, July 31. This Upload provides a quarterly Child Welfare Data Dashboard update. Other July deadlines:

- 19th - Title IV-E Abstract Report due
- 30th - SEAGR due
- 30th - TCM CSR due

The SSIS Worker Advisory Group thanks you!

An incredible **62** out of 82 agencies sent in Top 30 high-priority wish lists. Five agencies voted no preferences at this time. Thanks to all of you who sent in lists. And, thank you to the statewide Worker Advisory Group (WAG) representatives for working so hard on all agencies' behalf.

After calculating all of the votes, the internal SSIS WAG team now has a list of the Top 30 statewide high priorities. Each of the Top 30 items has been assessed and sorted by:

- Is the item included in the August statewide release?
- Is the item assigned to a future release?
- Do we need more specific information on the item?
- Must we consult with other DHS policy or systems?
- Do we need to do additional design and development analysis?

Our next WAG meeting is July 31st. The team will review the statewide vote and plan the next steps in the process.

Both the July 31st WAG agenda and statewide voting results will be posted on CountyLink soon.
