

Medication Therapy Management Services Education Requirements

Pharmacists must enroll with the department to provide Medication Therapy Management Services. A provider for MTM must have graduated from a college of pharmacy after May 1996 or passed a DHS-approved Accreditation Council of Pharmacy Education (ACPE) program that has both didactic and clinical elements. The clinical component of the course must include seeing actual patients and having those encounters evaluated by the course sponsors. Additional courses may be approved and added to this list. To have a program evaluated for approval, fax your name, phone number and the sponsor's course description to:

Pharmacy Unit
651-431-7426
