Comments sought on 2016 Statewide Managed Care Procurement

The Minnesota Department of Human Services (DHS) is gathering input into the statewide procurement Request for Proposals (RFP) for Medical Assistance (MA) and MinnesotaCare members enrolled in managed care. The purpose of this request for comments is to solicit community feedback on how we can improve the measurement and performance of managed care contracting; our goal is to improve outcomes and service to our members, providers, counties and communities. DHS will use the feedback it receives through this request for comments and other stakeholder meetings to inform the design (measurement, weight, evaluation) of the statewide managed care procurement for MA and MinnesotaCare.

The comments provided through this process are for planning purposes only. Those who respond should not anticipate feedback from DHS. DHS will publish the RFP Jan. 5, 2015, for contracts beginning Jan. 1, 2016. More information about the request for comments is in [response instructions document \(PDF\)](#).
